EDUCATION

National Institute of Technology, Warangal **Aug 2020 – Jun 2024**

- Bachelor of Technology in Material and Metallurgical Engineering

RELEVANT COURSEWORK: Data Cleaning & Transformation, Probability and Statistics, Data Visualisation with Power BI, and Machine Learning – Inttrvu.ai

EXPERIENCE

PRODUCT OPERATIONS AND DATA INTERN - GHARPAYY INTERNSHIP **Feb 2026 – Present**

- Solved conversion friction through website experiments, increasing conversions from 15%→20% (desktop) and 10%→20% (mobile).
- Analysed 5K+ monthly sessions using Google Analytics to identify drop-offs and improve user flow.
- Automated 1000+ lead workflows using Customer.io, SQL, and Supabase to improve execution speed.
- Built analytics dashboards tracking 5K+ leads and conversions using Lovable, TypeScript, and Supabase.

PRODUCT GROWTH & CUSTOMER EXPERIENCE INTERN – GHARPAYY INTERNSHIP **Sep 2025 – Jan 2026**

- Analysed customer pain points and real-time problems through calls, providing requirement-based onboarding and booking support, improving conversions by 10%.
- Conducted 10 weekly property visits to solve customer issues and improve booking decisions.
- Increased monthly closures from 5–6 to 20 by reducing booking drop-offs and improving conversions.

PROJECTS

CUSTOMER RETENTION AND ACQUISITION DATA ANALYSIS | Documentation | GitHub Repository **May 2025**

Analysed 708K+ records to identify trends and revenue patterns across 20+ cities and vehicle types.

- Designed customer segmentation for 185K users using RFM (Recency, Frequency, Monetary) analysis, Customer Lifetime Value (CLV) metrics and cohort insights.
- Used Python for data analysis and created interactive Power BI dashboards to visualise INR 236 million revenue, 84K repeat users, and segment-wise performance.
- Revealed 81.36% of revenue from repeat users, INR 64.5 M+ from Delhi, and top SME 2W segments using dashboard insights and campaign performance metrics.

AUTOMATED STOCK TREND ANALYSIS USING FYERS API | Documentation **Oct 2024**

Developed a system to support long-term stock trend analysis and investment decision-making.

- Integrated Fyers REST API to extract real-time daily stock data for 200 listed stocks over 5 years.
- Developed a Python-based system to identify uptrends and accumulation phases, streamlining stock analysis and saving 15+ hours weekly.
- Found that 70% of the time, daily time frame accumulation leads to price advances (38 out of 54 cases).

CERTIFICATIONS

- Career Essentials in Data Analysis – Microsoft & LinkedIn Learning, Certification **Mar 2025**
- Supervised Machine Learning: Regression and Classification – Coursera, Certification **Nov 2023**
- Data Science Foundations – Great Learning Academy, Certification **Jun 2022**

TECHNICAL SKILLS

- **Product & Analytics:** Product Management, User Research, Growth Experiments, KPI & Business Metrics
- **Programming & Data:** Python, SQL, JavaScript, API Integration, ETL Pipelines
- **Tools & Platforms:** Google Analytics, Power BI, Excel, Supabase, Customer.io, Git, GitHub
- **Dashboard & Operations:** Dashboard Development, Workflow Automation, Funnel Optimisation, Data Cleaning, Data Transformation, Technical Documentation, Root Cause Analysis

POSITION OF RESPONSIBILITIES

Team Leader – Student Council, NIT Warangal **2022 – 2024**

- Managed a team of 3 and coordinated 100+ volunteers to execute high-impact campus campaigns.

Volunteer, Spring Spree Cultural Festival **2022**

- Supported event management for 2,000+ attendees; ensured timely coordination and logistics.
